Guiding Innovation
Illinois WIOA Policy

Policy Chapters & Sections A-Z Listing Archived Policy Print Policy

The Illinois Workforce Innovation Board (IWIB) is responsible for providing leadership to ensure the programs offered through the Workforce Innovation and Opportunity Act (WIOA) make investments that are evidence-based, data-driven, and meet the businesses need for a skilled workforce. This includes the development of policy, identification of best practices, and setting parameters for continuous improvement of the system.

In addition, as the Governor's designated agency for the Title 1 Workforce Development Activities and the Trade Adjustment Assistance Act (TAA), the Department of Commerce Office of Employment and Training (OET) provides policy and guidance to the Local Workforce Innovation Boards (LWIB) for the delivery of workforce development adult, dislocated worker, and youth services as well as those offered under TAA.

Within this ePolicy manual are policy, procedures, related documents, and resources to support the LWIB in the implementation and provision of service under WIOA. Refer to the [User Guide](#) for step-by-step instructions, archived webinars, and instructional materials on using the ePolicy manual.

Click on the 9.3 Entry into the Dislocation Event Tracking System (DETS).

Entry into the Dislocation Event Tracking System (DETS)

Chapter: 9 Section: 3
Effective Date: 4/1/2009
Expiration Date: Continuing
Published Date: 1/2/2018 1:10:49 PM
Status: Current ✓
Version: 1
Tags: DETS, TAA, Rapid Response

This policy is to be used in conjunction with the Dislocated Events Tracking System (DETS) Manual. The DETS Manual provides guidance on how dislocation events are to be entered into IWDS. Entering a dislocation event in DETS is only one activity in addressing the needs of the impacted workers.

Although it is recognized that the circumstances of each closing, layoff or disaster may vary and present unique problems not anticipated or provided for in the procedures, recording and documenting events must be consistent and accurate. Therefore, the following policy is in place concerning the entry of dislocation events into DETS:

Expand the Attachments (1) tab for the Dislocation Event and Tracking System (DETS) Manual.
